Get
constrained

5

Get
predictable

6

Get your
feet up

THE AGILE INSIDE OUT BLUEPRINT

Events

- ☐ **Sprint Planning** - *every* Sprint
- ☐ **Daily Scrum** - *every* day
- ☐ **Sprint Review**¹ - *every* Sprint
- ☐ **Sprint Retrospective** - *every* Sprint

¹ If you refer to *The Scrum Guide*, you'll see that there are a number of elements to a "proper" Sprint Review. If you're new to Sprint Reviews, start small: start with the **Demo**.

Roles

- ☐ Product Owner²
- ☐ Scrum Master²
- ☐ Development Team

² Not every team has the luxury of a dedicated Product Owner. And not every team has the luxury of a dedicated Scrum Master. You may not have the *people*, but you need the roles!

Remember: this is **Get Complete** - it's not **Get Perfect!**
